

KOMAL PREET KAUR

AI/ML Engineer | Python | TensorFlow | Data Analytics | Flask | Cloud comp | Chatbot Integrations

preetkomal4074@gmail.com | +91 96719 38465 | [GitHub: Kkomal12343](#) | [LinkedIn: komal](#)

SUMMARY

Results-driven **Data Analyst & AI/ML Enthusiast** with hands-on experience at Eclerx, skilled in transforming raw data into actionable insights. Proficient in **Python, TensorFlow, SQL, Power BI, and Tableau**, with practical exposure to **Machine Learning, Chatbot Integrations, and Cloud Computing**. Adept at building intelligent data pipelines, interactive dashboards, and AI-powered solutions that drive smarter business decisions. Passionate about leveraging cutting-edge technology to solve real-world problems at scale.

EDUCATION

B. Tech in Artificial Intelligence & Data Science	2025
Chandigarh Group of Colleges (CGC), Landan – Punjab Technical University	CGPA: 8.1/10
Senior Secondary (CBSE)	2021
Sant Nischal Singh Public School, Yamuna Nagar	Percentage: 76%
Matriculation (CBSE)	2019
Sant Nischal Singh Public School, Yamuna Nagar	Percentage: 78%

TECHNICAL SKILLS

- **Programming:** Python, C++, Core Java, SQL, R, HTML, CSS, JavaScript
- **ML & Libraries:** Pandas, NumPy, Scikit-learn, TensorFlow, PyTorch
- **Visualization:** Seaborn (Advanced), Matplotlib, Plotly, Tableau, Power BI
- **Frameworks:** Flask, Django, ChatGPT API, LangChain/AgentGPT (Beginner)
- **Cloud & Tools:** AWS EC2, Git/GitHub, Jupyter, Google Sheets
- **Databases:** MySQL, MS Access
- **Competencies:** Data Structures & Algorithms, Object-Oriented Programming, Google Tools.

INTERNSHIPS & EXPERIENCE

Data Analyst	Eclerx
• Queried & analyzed large datasets using SQL & Python to uncover trends and business insights • Built Power BI & Tableau dashboards for real-time KPI tracking across departments • Cleaned & transformed raw, messy data in Excel & Python ensuring 100% report accuracy • Delivered weekly & monthly reports with key findings directly to senior management • Bridged gap between business teams & data by converting complex numbers into clear visuals	
Data Analyst Intern	Born Tech Solutions
• Automated deep cleaning of medical and operational datasets using Pandas, replacing manual spreadsheet work, improving team efficiency by 20% • Developed reusable Python scripts for data preprocessing and quality checks; supported internal reporting dashboards. • Collaborated with a mentor for code review while independently owning most scripts.	
Software Development Intern	Absolute IT
• Built backend authentication workflows in Flask (login, signup, password reset). • Diagnosed and fixed logic issues across request handlers and form validation to reduce runtime errors. • Coordinated with frontend contributors to ensure smooth data flow between UI and backend.	

PROJECTS

AI-Powered Food Services Chatbot

Technologies: Python, Flask/Django, Node.js,

- Built a multi-turn GPT-4 assistant for menu browsing, order placement, and instant support.
- Implemented a secure, context-aware backend (auth, conversation memory, cart/order APIs) and a clean Node.js chat UI to maintain natural flow.
- Added personalized recommendations from prior orders and menu metadata to boost engagement and upselling relevant items.
- Integrated live order tracking with in-chat status updates and smart escalation to human support.
- Reduced manual support tickets by **27%** (average per day 22 to 16) after adding in chat FAQs and live order tracking.

Heart Disease Prediction Model

Technologies: Python, Scikit-learn, Pandas

- Implemented Random Forest, Decision Trees, and Logistic Regression on structured clinical data • Achieved **70%** accuracy.
- Applied cross-validation and GridSearchCV for hyperparameter tuning to improve generalization.
- Delivered the solution as a Jupyter notebook with clear EDA, model comparison, and conclusions.

COVID-19 Live Dashboard

Technologies: Python, Plotly, Pandas, APIs

- Built an interactive dashboard with real-time stats and dynamic filters by country and time window.
- Implemented data cleaning and transformation pipelines; presented trends and hotspots via interactive charts.
- Shared among classmates for tracking local and global case trends.

CERTIFICATIONS

-
- Certificate of Merit Naukri Campus Young Turks
 - 5-Star Rating in Python for AI/ML HackerRank
 - AWS and Azure certifications AWS
 - Clean, transform, and load data in Power BI Microsoft Learning
 - Playbook for AI Excellence: Training and Assessment Oracle
 - AI certifications LinkedIn Learning
 - Certified in Wireless Ad Hoc & Sensor Networks NTPL

AWARDS & ACHIEVEMENTS

-
- Top 5 in CodeChef Campus Contest 2024
 - State-Level Gold Medalist – Powerlifting | Silver Medalist Weightlifting
 - 1st Prize – State-Level Painting Competition (2019, 2020, 2022)
 - Published ML article on Medium 2018
 - Silver Community Service Award
